NAME:	Quwwat Education Centre		
PROJECT NAME & COST	Teen Zone £10,050		
AREA:	Preston		
PROJECT DURATION:	12 months		
PROPOSED START DATE:	February 2024	MATCH FUNDS:	£975 from charity reserves.
SUMMARY:	<p>The project aims to have a multifaceted positive impact on the local community in several ways:</p> <ol style="list-style-type: none"> 1. Addressing Social Issues: By tackling anti-social behaviour and promoting safe driving practices, the project contributes to making the community safer, more respectful, and considerate. This leads to a reduction in disturbances and a sense of security among residents. 2. Youth Empowerment: Providing a safe space for teenagers and offering mentorship opportunities fosters personal growth, skill development, and confidence among young individuals. Empowered youth often become assets to their communities, contributing positively through their actions and involvement. 3. Community Cohesion: By fostering mutual respect, understanding, and friendship among participants, the project encourages a sense of community cohesion. This unity can transcend the project itself, promoting harmony and collaboration among diverse community members. 4. Education and Awareness: The age-appropriate education and awareness campaigns about anti-social behaviour and dangerous driving have the potential to create a ripple effect. Empowering individuals with knowledge and local experiences helps spread awareness and understanding throughout the community, leading to informed decisions and behaviour changes. 5. Resource Provision: Offering necessary facilities, amenities, and mentorship creates a resource hub within the community. This not only supports the immediate participants but also becomes a resource centre that can be utilised by others in need within the local area. 6. Positive Role Modelling: Through mentorship and fostering a supportive atmosphere, the project can provide positive role models for young individuals. These role models can inspire others within the community, contributing to a positive cultural shift. 7. Improving Quality of Life: Creating warm and welcoming spaces that cater to attendees' needs contributes to an improved quality of life for participants. Feeling valued, heard, and supported enhances well-being, not just for those directly involved but also for their families and immediate circles.
