PART I

1. Background and Advice

The Commissioner's Grant opportunities opened on 11 May 2026, following a comprehensive redesign of the grant commissioning process. The community grant opportunities focus on outcome focused delivery, partnership working, accountability, and alignment with strategic priorities. The programme is explicitly designed to support preventative and early-intervention activity that contributes to the Police and Crime Plan 2024–2029, including tackling crime, antisocial behaviour, serious violence, and violence against women and girls.

Funding is delivered through three routes:

- **Community Grants (up to £5,000):** Supporting short-term, pilot, or community-led initiatives, with priority given to “crime prevention, youth diversion and VAWG initiatives”. Applications must include a supporting reference from a relevant partner.
- **CSP Sponsored Grants (up to £20,000 per local authority area):** Designed to “develop and implement targeted interventions that address local crime issues, improve community safety, and strengthen partnership working between agencies”. These require formal CSP support or sponsorship.
- **MP Sponsored Grants (up to £50,000):** Enabling MPs to lead or support projects that “improve safety, strengthen public trust, and contribute to long-term crime prevention”.

Grant applicants are for partnership endorsement or sponsorship across all funding levels. This reflects the OPCC's expectation that projects must demonstrate they are “informed by local knowledge, aligned with existing services, and supported by partners with a strategic or operational role”.

All applications are subject to an initial pre-evaluation process to ensure compliance with the grant requirements. This includes checks to confirm that proposals meet the published eligibility and assessment criteria, alongside appropriate due diligence on the applicant organisation. As part of this stage, consideration is also given to the extent and strength of partnership support, ensuring that applications demonstrate effective collaboration and alignment with wider local priorities before progressing to full evaluation.

All grant applications received before the deadline of 17 June were evaluated against the published assessment criteria. Applications that met the required standards and could be accommodated within the available budget have been recommended for support to the Police and Crime Commissioner (PCC).

An overview of all supported organisations, costs and a brief synopsis of the project can be located at Appendix A.

3. Consultations

As part of the consultation process, the original grant guidance has been widely shared with key stakeholders to ensure transparency and accessibility. This has included, but is not limited to, police, CSPs, local authorities, service providers, PCC staff, and both previously successful and unsuccessful applicants. This approach supports open engagement and encourages a diverse range of applications. In addition, the Commissioning and Procurement team hosts a monthly drop-in session for potential applicants, providing an opportunity to seek clarification, discuss proposals, and receive guidance on the funding process.
