Regarding the Internal Review conducted by xxx, I confirm xxx had no involvement in the original FOI response and therefore xxx could be the Internal Reviewer of your original FOI. D. However, please do not apply blanket redactions to job titles, roles, or internal decision-making.* ***5. Contextual Note (for clarity only)*** *This request is prompted by the OPCC's repeated use of template acknowledgements and the absence of substantive engagement with statutory duties. For example, the OPCC repeatedly issued the same automated acknowledgement:* *"A member of our team will review your correspondence… we strive to respond within 20 working days."* *This appears inconsistent with the requirement to respond promptly, as highlighted in my correspondence of 24 March 2025.*	

		6. Statutory Duties *This request is made under Section 1(1) of FOIA.* *Please also ensure compliance with Section 16 (duty to advise and assist).*	
2026/10 **21/05/2026**	Email	*Would you please tell me how many arrests and prosecutions followed when "travellers" left xxx's field with rubbish and human excrement left on the site and how are travellers, not just here but all over the UK, allowed to get away with these and other crimes, and what steps are being put in place to stop similar behaviour and law breaking in future.*	**27/05/2026** In response to your questions '*how are travellers, not just here but all over the UK, allowed to get away with these and other crimes, and what steps are being put in place to stop similar behaviour and law breaking in future',* these questions are in the course of business and would not fall under the FOI Act. Therefore, I have asked our office to respond to these questions separately. In response to '*Would you please tell me how many arrests and prosecutions followed when "travellers" left Miss Whalley's field with rubbish and human excrement left on the site'*, this would need to be dealt with as a Freedom of Information Request. Section 1 of the Freedom of information Act 2000 (FOIA) places two duties on public authorities. Unless exemptions apply, the first duty at Section 1(1)(a) is to confirm or deny whether the information specified within a request is held. The second duty at Section 1(1)(b) is to disclose information that has been confirmed as being held. Where exemptions are relied upon Section 17 of the FOIA requires that we provide you with a notice which: a) states that fact, b) specifies the exemption(s) in question and c) state (if that would not otherwise be apparent) why the exemption applies.

2026/12 **10/06/2026**	WDTK	*I am writing to request information under the Freedom of Information Act 2000. I am requesting aggregate statistical counts only — no personal data and no information relating to any identifiable individual.* *My request:* *Please provide the daily number of domestic abuse incidents and domestic abuse crimes recorded by [Police Force] for each calendar day from 1 January 2017 to 31 December 2024 inclusive.* *Where your systems allow, I would like one row per calendar day with the following columns:* *- Date*	**11/06/2026** I can confirm that the Office of the Police & Crime Commissioner (OPCC) for Lancashire does not hold the information you have requested as it relates to domestic abuse incidents and crimes recorded. However, Lancashire Constabulary may be able to assist, therefore please redirect your request here Request information | Lancashire Constabulary

		- Number of domestic-abuse-flagged incidents recorded on that date *- Number of domestic-abuse-flagged crimes recorded on that date* *This continuous date range deliberately spans several major international football tournaments involving England (the 2018 and 2022 FIFA World Cups and the 2020 and 2024 UEFA European Championships) as well as long periods outside any tournament, which I intend to use as a baseline. Supplying the full continuous range should require only a single date-bounded query.* *To help me interpret the figures correctly, please also confirm:* *1. The definition or flag your force uses to classify an incident or crime as 'domestic abuse'.* *2. Whether each daily count is based on the date the incident occurred or the date it was reported/recorded.* *If possible, please supply the data in a machine-readable format such as CSV or Excel (.xlsx) rather than PDF.* *If you anticipate that this request will exceed the appropriate cost limit under Section 12, please contact me before refusing so that I can narrow the scope. As a fallback, I would accept daily counts limited to the following windows: 14 June–15 July 2018, 11 June–11 July 2021, 20 November–18 December 2022, and 14 June–14 July 2024 (tournament periods), together with the same calendar windows in 2019 and 2023 as a baseline.*	

2026/13 **23/06/2026**	Email	*I'm doing another data-led story about drug crime and organised cannabis production in Blackburn, looking at recent enforcement activity under Operation Warrior and how this links to wider trends locally.* *I'm particularly interested in:* • *Recent figures for drug-related offences and arrests in Blackburn / Blackburn with Darwen over the last 2–3 years* • *Any data you can share on cannabis farms or organised drug operations uncovered in the borough (for example number of sites, plants seized, linked offences)* • *A short comment on how Operation Warrior is targeting organised drug networks in East Lancashire, and how important community intelligence is in identifying hidden sites* *If possible, could you also confirm or update the figures used in the latest Blackburn with Darwen strategic assessment regarding drug-related crime, county lines and child criminal exploitation?*	**24/06/2026** I can confirm that the Office of the Police & Crime Commissioner (OPCC) for Lancashire does not hold the information you have requested as it relates to drug-related offences, arrests and organised drug operations. 2026/14 **23/06/2026**	Email	*Under the law I can make the request to anyone in the organisation. That namely is the PCC not Lancashire police. For the sake of transparency I need your name so I can tell my MP, who I am seeing on Saturday, which member of the force is being corrupt. I also need to know if you are a police officer so I can bring a Section 26 offence against you.*	**10/07/2026** I can confirm that the Office of the Police & Crime Commissioner (OPCC) for Lancashire does hold the information you have requested. However, the information you have requested includes the name and details of an employee of the OPCC. This constitutes personal data and therefore is exempt under the following listed exemption:

		I will assume that you will not answer this so under the Freedom of Information Act I am making FOI request for your name and details.	• Section 40(2) Personal Information The information requested constitutes personal data, relating to persons other than you, who would likely be identifiable from the release of such information. This section exempts personal information from disclosure, if that information relates to someone other than the applicant and if disclosure of that information would breach any of the data protection principles in article 5(1) of the GDPR. We consider that disclosure of this information is likely to breach the first data protection principle, which provides that personal data must be processed lawfully, fairly and in a transparent manner. Disclosure would not comply with all the principles and the administrator involved would not reasonably expect their identifiable information to be disclosed in relation to this request for information. Section 40(2) is an absolute exemption, so the public interest test does not apply. This letter serves to act as a refusal notice for this request, as per section 17(1) of the act.
2026/15 **23/06/2026**	Email	*Also under the Freedom of Information Act I wish to know the average time from receipt does the PCC take to complete an investigation.*	**09/07/2026** I can confirm that the Office of the Police & Crime Commissioner (OPCC) for Lancashire does hold this information. Your request relates to the number of days taken by the OPCC to complete a complaint review. There is no time limit in the Regulations around how long a review should take, however our office

			aims to issue complaint review responses within 56 working days from confirmation of the review. This concludes our response to your request.
2026/16 **25/06/2026**	Email	• *A copy of the assessment scoring matrix* • *The scores awarded under each assessment criterion* • *Detailed assessor comments* • *Information about any review or appeals process* • *Advice on how our application could be strengthened for future funding opportunities*	**14/07/2025** I can confirm that the Office of the Police & Crime Commissioner (OPCC) for Lancashire does hold the information you have requested as detailed below: • A copy of the Grants Scoring Matrix for 2026/27 is attached to the email. • The scores awarded to xxx under each assessment criterion, which includes assessor comments, is attached to the email. Applications for this fund were assessed competitively against published criteria, with recommendations made and final decision by the Commissioner based on average score and reviewer feedback, the decision of the Commissioner is final. Whilst there is no formal appeals procedure for grants, our xxx has looked into this and the procedure for grant consideration has been followed. An unsuccessful outcome in this funding round does not preclude an organisation from applying for future OPCC grant opportunities as per published criteria. We would encourage applicants to consider the feedback provided and, where appropriate, submit revised applications in future rounds.

			In line with the grant guidance, evaluation and delivery information from previously funded projects is used to help assess organisational capacity, inform future funding decisions and support continuous improvement. As part of this assessment, the reviewer took into account previous delivery concerns relating to the implementation of an earlier funded project, specifically around obtaining the necessary permissions and approvals. Whilst this did not affect all assessment areas, it did influence the confidence in aspects of project delivery, governance and partnership working, which was reflected in the scores awarded under the relevant criteria. Strengthening the areas outlined above, particularly around evidencing need, partnership commitments - particularly relating to deliver partners such as the self-defence lead and relevant local VAWG service, governance arrangements and sustainability, would improve the strength of future submissions. We have already received further evidence of need from xxx, a collection of resident surveys, we will save these on file should a future application be received. I have also attached to the email a copy of xxx submitted application for your future referral.

Of the 16 FOIs received in this quarter, 16 were responded to in time.
